

### Change of Language Form

Our school encourages students who entered DCIS in middle school to take the same language for a minimum of five years to develop fluency and proficiency.

Policy: Students are allowed to change their language choice between 8<sup>th</sup> and 9<sup>th</sup> grade. High School students who enter DCIS in ninth grade or students who switch and start a new language as a freshman are required to study the same world language all four years of high school or through the fifth level.

If you are an 8<sup>th</sup> grader and would like to change your world language choice for next year (2017/2018) please submit this form completed by **March 10, 2017**.

Requests will be considered on a space available basis and with permission of both your current and new world language teacher.
